

APICS is the leading professional association for Supply Chain and Operations Management.

August 2018 Newsletter

SUPPLYONE

Please join us for a tour of SupplyOne's facility

Thursday, September 20th at 11:30am

www.supplyone.com

What we do:

Our goal is to be your primary source for custom packaging strategies and products that save you money—guaranteed in writing. Since our founding in 1998, SupplyOne has focused on extending our reach by acquiring profitable companies who are recognized leaders in their local market. It's our mission to uncover the hidden costs within our customers' packaging expenses and find the opportunities that increase efficiency and improve cash flow. As both a manufacturer and distributor of packaging, we understand the full scope of the industry. From service to delivery, our Certified Packaging Specialists are committed to responsive service and dedicated to quality.

Services we provide:

Packaging Management Program, Managed Services Program, Food Packaging Program, Retail Store Services, Labels, Plastic Thermforming, Fabricated Foam, Distribution, Packaging Automation

Where: 8330 Jefferson NE Albuquerque, NM 87113

NOTE: Tour limited to the first 25 people so make your reservations today!

Please RSVP to Jesse Sollien, jesse.r.sollien@raytheon.com

EDUCATION

If you are interested in starting your CPIM or CSCP certification education, please send an email to contact@abqapics.org or call 505-331-8205

CPIM Certification

Acquire a working knowledge of the tools and techniques for planning of inventory, including planning techniques such as MRP, CRP, lean, TOC, and projects. Understand the effect of using each technique; know standard measurements for inventory, materials, capacity and supplier performance; and recognize when to escalate issues. Topics include:

- Managing inventory, planning material requirements, planning capacity requirements, and procurement and supplier planning
- Recognizing the importance of supply chain management and deploying supply chain strategies related to scheduling, planning, and sourcing
- Translating product-level plans and schedules generated at the master planning level into requirements that can be procured or produced
- Bridging the master planning area with the execution and control function
- Planning, scheduling, resource allocation, and implementing projects that are used to manage the supply of products and services 2017

APICS CPIM provides

- Increased efficiency across organizational operations
- Understanding of production and inventory activities within the internal operations of a company
- In-depth view of materials management, master scheduling, production planning, forecasting and quality improvement within the confines of the operation.
