EDUCATION

If you are interested in starting your CPIM or CSCP certification education, please send an email to contact@abqapics.org or call 505-331-8205

CPIM Certification

Acquire a working knowledge of the tools and techniques for planning of inventory, including planning techniques such as MRP, CRP, lean, TOC, and projects. Understand the effect of using each technique; know standard measurements for inventory, materials, capacity and supplier performance; and recognize when to escalate issues. Topics include:

- Managing inventory, planning material requirements, planning capacity requirements, and procurement and supplier planning
- Recognizing the importance of supply chain management and deploying supply chain strategies related to scheduling, planning, and sourcing
- Translating product-level plans and schedules generated at the master planning level into requirements that can be procured or produced
- Bridging the master planning area with the execution and control function
- Planning, scheduling, resource allocation, and implementing projects that are used to manage the supply of products and services 2017

APICS CPIM provides

- Increased efficiency across organizational operations
- Understanding of production and inventory activities within the internal operations of a company
- In-depth view of materials management, master scheduling, production planning, forecasting and quality improvement within the confines of the operation.

CSCP Certification

What is the APICS CSCP Program?

- Professional development, education and certification program
- First certification program to focus on the end-to-end global supply chain
- The global standard in supply chain education and certification since its introduction in 2006

Benefits of APICS CSCP Education

- This world-renowned program benefits professionals and employers by
- aligning global supply chain strategies with business objectives to streamline operations and drive profits
- helping professionals gain knowledge and practical applications to effectively manage global supply chain activities
- demonstrating mastery of the concepts that create consistency and foster collaboration through best practices, common terminology and corporate wide communication
- increasing employee on-the-job confidence
- enhancing credibility throughout the industry

What Can the APICS CSCP Program Do for Employees?

- **Expertise in supply chain management** areas that are broader than the normal scope
- One **comprehensive source** of reference material that is unbiased by special interests of consultants
- Stay **up-to-date** on advances and evolution of knowledge in this field with conferences, publications
- Gain a **network of contacts** from different industries who have all also completed the APICS CSCP program
