

APICS is the leading professional association for Supply Chain and Operations Management.

**PROGRAMS**

# Honeywell

**Please join us for a tour at Honeywell Aerospace and Defense  
Thursday, May 30<sup>th</sup> at 11:00am. Arrival 10:30am**

Honeywell invents and manufactures technologies that address some of the world's most critical challenges around energy, safety, security, productivity and global urbanization. They are uniquely positioned to blend physical products with software to support connected systems that improve buildings, factories, utilities, and aircraft, and that enable a safer, more comfortable and more productive world. Honeywell's solutions enhance the quality of life of people around the globe and create new markets and even new industries.

As a Fortune 100 company with \$41.8B in sales in 2018, Honeywell has established a track record of strong financial performance over time.

Honeywell Aerospace innovates and integrates thousands of products, software and services to advance and more easily deliver safe, efficient, productive and comfortable transportation experiences worldwide. Their offerings are found on virtually every commercial, defense and space aircraft.

Honeywell develops innovative solutions for more fuel-efficient and environmentally friendly airplanes, more direct and on-time flights, safer flying and reduced runway and flight traffic plus engines, cockpit and cabin electronics, wireless connectivity equipment and services and logistics.

**The number of participants in this PDM is limited and the tour is open to US Citizens only. (proof of citizenship will be requested) RSVP now to reserve your spot ASAP!**

**APICS is the leading professional association for Supply Chain and Operations Management.**

## EDUCATION

If you are interested in starting your CPIM or CSCP certification education, please send an email to [contact@abqapics.org](mailto:contact@abqapics.org) or call 505-331-8205

### *CPIM Certification*

Acquire a working knowledge of the tools and techniques for planning of inventory, including planning techniques such as MRP, CRP, lean, TOC, and projects. Understand the effect of using each technique; know standard measurements for inventory, materials, capacity and supplier performance; and recognize when to escalate issues. Topics include:

- Managing inventory, planning material requirements, planning capacity requirements, and procurement and supplier planning
- Recognizing the importance of supply chain management and deploying supply chain strategies related to scheduling, planning, and sourcing
- Translating product-level plans and schedules generated at the master planning level into requirements that can be procured or produced
- Bridging the master planning area with the execution and control function
- Planning, scheduling, resource allocation, and implementing projects that are used to manage the supply of products and services 2017

### *APICS CPIM provides*

- Increased efficiency across organizational operations
- Understanding of production and inventory activities within the internal operations of a company
- In-depth view of materials management, master scheduling, production planning, forecasting and quality improvement within the confines of the operation.
- 

## *CSCP Certification*

## What is the APICS CSCP Program?

- Professional development, education and certification program
- First certification program to focus on the end-to-end global supply chain
- The global standard in supply chain education and certification since its introduction in 2006

## Benefits of APICS CSCP Education

- This world-renowned program benefits professionals and employers by
- aligning global supply chain strategies with business objectives to streamline operations and drive profits
- helping professionals gain knowledge and practical applications to effectively manage global supply chain activities
- demonstrating mastery of the concepts that create consistency and foster collaboration through best practices, common terminology and corporate wide communication
- increasing employee on-the-job confidence
- enhancing credibility throughout the industry

## What Can the APICS CSCP Program Do for Employees?

- **Expertise in supply chain management** areas that are broader than the normal scope
- One **comprehensive source** of reference material that is unbiased by special interests of consultants
- Stay **up-to-date** on advances and evolution of knowledge in this field with conferences, publications
- Gain a **network of contacts** from different industries who have all also completed the APICS CSCP program
