

ASCM is the leading professional association for Supply Chain and Operations Management

**ASCM Colorado Virtual PDM**  
**Wednesday, October 13<sup>th</sup>, 2021, at 6:30 pm (MST)**

**TOPIC: Smart Roads**

**SPEAKER: Lauren Isaac**

**Location: Zoom Meeting ONLINE - FREE**

**Online Registration by noon Friday Oct 8<sup>th</sup>**

**To register go to: [www.colorado.ascm.org](http://www.colorado.ascm.org) or call (303) 421-0797**

Join us for a great evening as we get an update on the future of smart roads and easier transportation. Our guest speaker, Lauren, will re-introduce us to EasyMile, a Denver-based driverless technology company. She'll discuss the state of the driverless technology, challenges the industry faces, and provide some examples of deployments that are happening both locally and around the country.

Lauren Isaac is the Director of Business Initiatives for the North American operation of EasyMile. EasyMile specializes in autonomous vehicle technology and smart mobility solutions. Its best-known product is the EZ10: electric & driverless, the shuttles are designed to cover short distances in multi-use environments. Lauren leads business development for EasyMile in North America in addition to leading the company's North America regulatory efforts.

Prior to working at EasyMile, Lauren worked at WSP where she was involved in various projects involving advanced technologies that can improve mobility in cities. Lauren wrote a guide titled "Driving Towards Driverless: A Guide for Government Agencies" regarding how local and regional governments should respond to autonomous vehicles in the short, medium, and long term. In addition, Lauren maintains the blog, "Driving Towards Driverless", and has presented on this topic at many industry conferences. She recently did a TEDx Talk and has been published in Forbes and the Chicago Tribune among other publications.

## EDUCATION

If you are interested in starting your CPIM or CSCP certification education, please send an email to [info@newmexico.ascm.org](mailto:info@newmexico.ascm.org) or call 505-331-8205

### *CPIM Certification*

Acquire a working knowledge of the tools and techniques for planning of inventory, including planning techniques such as MRP, CRP, lean, TOC, and projects. Understand the effect of using each technique; know standard measurements for inventory, materials, capacity and supplier performance; and recognize when to escalate issues. Topics include:

- Managing inventory, planning material requirements, planning capacity requirements, and procurement and supplier planning
- Recognizing the importance of supply chain management and deploying supply chain strategies related to scheduling, planning, and sourcing
- Translating product-level plans and schedules generated at the master planning level into requirements that can be procured or produced
- Bridging the master planning area with the execution and control function
- Planning, scheduling, resource allocation, and implementing projects that are used to manage the supply of products and services 2017

### *APICS CPIM provides*

- Increased efficiency across organizational operations
- Understanding of production and inventory activities within the internal operations of a company
- In-depth view of materials management, master scheduling, production planning, forecasting and quality improvement within the confines of the operation.

ASCM is the leading professional association for Supply Chain and Operations Management

## *CSCP Certification*

## What is the APICS CSCP Program?

- Professional development, education and certification program
- First certification program to focus on the end-to-end global supply chain
- The global standard in supply chain education and certification since its introduction in 2006

## Benefits of APICS CSCP Education

- This world-renowned program benefits professionals and employers by
- aligning global supply chain strategies with business objectives to streamline operations and drive profits
- helping professionals gain knowledge and practical applications to effectively manage global supply chain activities
- demonstrating mastery of the concepts that create consistency and foster collaboration through best practices, common terminology and corporate wide communication
- increasing employee on-the-job confidence
- enhancing credibility throughout the industry

## What Can the APICS CSCP Program Do for Employees?

- **Expertise in supply chain management** areas that are broader than the normal scope
- One **comprehensive source** of reference material that is unbiased by special interests of consultants
- Stay **up-to-date** on advances and evolution of knowledge in this field with conferences, publications
- Gain a **network of contacts** from different industries who have all also completed the APICS CSCP program
