Register at <https://colorado.ascm.org/meet-reg1.php?id=151>

Welcome to the New Year! We are going to start off the year with a discussion about Team Leadership using Agile and how it is used to improve processes.

Mark is an IT Professional, with hands-on experience in the areas of Development, Q&A, Program Management, Release Management, Documentation, Sales and Marketing, Customer and Technical

Support, -- from small boxed product, to cloud-based enterprise solutions. He has worked as an individual contributor, and as a manager of large teams, in the small business space, up to the enterprise level.

As a result of this diverse background, he is a master at communicating well between multiple groups. Mark builds long term strategies, while meeting short term objectives.

Mark's background includes:

- Scrum Master / Coach @ Insight Global/Cisco/Bank of America (current)
- Agile Coach @ SAP Concur
- Concur/Scrum Master/Mentor @ Logic 20/20
- Sr Program Mgr @ Aspect Software (Project Mgr/Business Analyst)
- Sr Program Mgr @ Microsoft

EDUCATION

If you are interested in starting your CPIM or CSCP certification education, please send an email to info@newmexico.ascm.org or call 505-331-8205

CPIM Certification

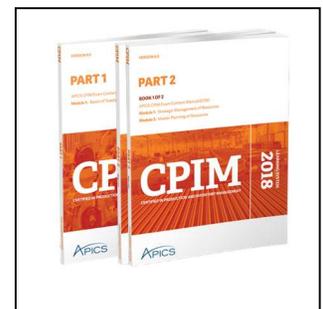

Acquire a working knowledge of the tools and techniques for planning of inventory, including planning techniques such as MRP, CRP, lean, TOC, and projects. Understand the effect of using each technique; know standard measurements for inventory, materials, capacity and supplier performance; and recognize when to escalate issues. Topics include:

- Managing inventory, planning material requirements, planning capacity requirements, and procurement and supplier planning
- Recognizing the importance of supply chain management and deploying supply chain strategies related to scheduling, planning, and sourcing
- Translating product-level plans and schedules generated at the master planning level into requirements that can be procured or produced
- Bridging the master planning area with the execution and control function
- Planning, scheduling, resource allocation, and implementing projects that are used to manage the supply of products and services 2017

APICS CPIM provides

- Increased efficiency across organizational operations
- Understanding of production and inventory activities within the internal operations of a company
- In-depth view of materials management, master scheduling, production planning, forecasting and quality improvement within the confines of the operation.

The Association for Supply Chain Management (ASCM) is the global leader in supply chain organizational transformation, innovation and leadership.

CSCP Certification

What is the APICS CSCP Program?

- Professional development, education and certification program
- First certification program to focus on the end-to-end global supply chain
- The global standard in supply chain education and certification since its introduction in 2006

Benefits of APICS CSCP Education

- This world-renowned program benefits professionals and employers by
- aligning global supply chain strategies with business objectives to streamline operations and drive profits
- helping professionals gain knowledge and practical applications to effectively manage global supply chain activities
- demonstrating mastery of the concepts that create consistency and foster collaboration through best practices, common terminology and corporate wide communication
- increasing employee on-the-job confidence
- enhancing credibility throughout the industry

What Can the APICS CSCP Program Do for Employees?

- **Expertise in supply chain management** areas that are broader than the normal scope
- One **comprehensive source** of reference material that is unbiased by special interests of consultants
- Stay **up-to-date** on advances and evolution of knowledge in this field with conferences, publications
- Gain a **network of contacts** from different industries who have all also completed the APICS CSCP program
