How Do You Build A Safety Culture That Sticks?

A Fireside Chat

Date: Thursday, March 09, 2023

Time: 12:00 PM EST

We talk a lot about building a safety culture, but what does that really look like? Whether you're starting from scratch, or have a robust safety program, training is key to building a safety culture that sticks.

In this interactive session, KPA's Jill Schaefer, Director of Content Management, and Shawn Smith, Product Director of Training, will discuss tangible steps to building a positive safety culture, gaining executive buy-in, and training best practices to build a safety culture that sticks

Join us to learn:

- Why is creating a positive safety culture important?
- Tangible steps to take
- How training builds and reinforces safety culture
- How to gain executive buy-in
- What a top-down approach looks like

"It (S&OP Class) was fantastic. I think it was a huge eye opener for everyone involved and showed us a lot of gaps we have where we need to focus our efforts. I've received nothing but positive feedback on the class so far. Everyone is really getting a lot from it." **Rachael LaFollette, CPIM, Supply Chain Planning Manager, AlloSource**

CPIM Accelerated Courses

Again this year we will be offering a chance to sign up for the Certified in Planning and Inventory Management (CPIM) certification courses at one time and be assured that the classes would not be canceled.

- The program will consist of both the CPIM Introduction and CPIM course for the CPIM Program unless you have already started taking a course, in which case your fees will be adjusted.
- One price will include course fees and exam credit, online learning component and all participant workbooks: \$2,800 for Certification-Level Members and \$3,000 for Non-Members
- Payment for all courses is due before the start of the first course.
- **Minimum of 12 students must enroll.**
- Classes will not be canceled (even if some students drop out), since they are scheduled and paid for by the whole class in the beginning.

CPIM Accelerated course is instructor-led online class

Classes will be held on Saturdays for 8 hours
8 am until 5 pm (1 hour lunch)

"I took the APICS CPIM class while preparing to restart my career in Production Planning after seven years of break from Supply Chain Management. The production and inventory management concepts and strategies were taught by instructors with immense knowledge and experience in the field who also shared real life examples. This, along with my interactions with the fellow students holding different supply chain positions helped me to gain a deeper understanding, and a good exposure to the current challenges in the field. I found a job in Production Planning soon after the classes were completed. The company I was working for was in the process of implementing a new ERP system, and the concepts that I learned in the CPIM class helped me to grasp many aspects of the job and the ERP system easily. I believe that the CPIM training enabled me to find a job faster than I'd expected and gave me a smoother transition back in the supply chain field. I would highly recommend this course for anyone interested to advance their career in supply chain management." **Jeena Alex, CPIM, Master Planner, Lockheed Martin**
